<b>MODEL NUMBER</b>	<b>M50.2</b>
<b>REFERENCE NUMBER</b>	<b>TD2017-03-M50.2</b>
<b>DATE</b>	<b>19 October 2017</b>

## USB UPGRADE PROCEDURE FOR M50.2

### SETUP CONDITIONS

- A** Download the upgrade file (.IMG file) to the root directory of a FAT32 or NTFS formatted USB storage device.
- B** Switch OFF the rear panel POWER switch.
- C** Insert the USB storage device (with .IMG file) into the front panel USB input.

### UPGRADE PROCEDURE

- 1** Switch ON the rear panel POWER switch. When Status Indicator (NAD logo in the front panel ) turns Red, press and hold  (Standby) button located at the top side of the front panel .
- 2** Continue to press and hold  (Standby) button until the Status Indicator begins blinking an alternating pattern of Green and Red.
- 3** Once completed, the M50.2 would reboot on its own and return to normal functionality. Remove the USB storage device from the front USB input.
