

## **BluOS 3.2.6**

---

With this new version of BluOS, AirPlay 2 is now supported on Bluesound 2i Players, letting you effortlessly stream music, podcasts, movie and TV soundtracks in high-fidelity from your iPhone, iPad or Mac. You can also now ask Siri to play a song from Apple Music, or quickly see what's playing in any room of your home by simply opening the Apple Home app.
