

M50.2 Digital Music Player

High resolution music listening, multi-room wireless streaming, and “bit perfect” CD ripping can now all be found in one beautiful component. A top-of-the-line, BluOS™-enabled player that is an extension to our popular 40th anniversary M50/M51/M52 Digital Music Suite. Just add a DAC of your choice and enjoy.

NETWORKED MUSIC THROUGHOUT THE HOME ▼

Digitise and centrally store your music library and make it available to other BluOS-enabled components throughout your home, all in high resolution and with a tap of a finger on your smartphone or tablet, or a click of a universal remote.

ENDLESS MUSIC ▼

BluOS offers users the broadest array of music sources for high resolution playback. Stream from a cloud service, plug in an existing digital music library from a hard drive, or preserve media in its native format with “bit perfect” CD ripping. Wherever or however you access your music, enjoy it with the M50.2.

BEAUTIFUL MUSIC DONE BEAUTIFULLY ▼

In addition to some of the most efficient and highest performing processors available, the M50.2 is elegantly designed, with a bright control panel and a sleek and streamlined look that is sure to fit any décor.
